

EXECUTIVE AIRCRAFT CONVERSIONS AND VIP COMPLETIONS

YOUR VISION OF FLYING

Inspiration comes from the world around us. The beautiful places we love and frequently visit. Your ideas, your vision, will really inspire us to design your unique aircraft interior. Challenge us to make your vision a reality.

Work with our bespoke design team to create a precisely tailored interior, one that suits your personal lifestyle. Be aware that at Fokker Services Group almost everything is possible to ensure your standards of travelling are not compromised.

HOW DO WE CREATE YOUR DREAM?

In daily life you put a high premium on luxury, quality, convenience and mobility. Most often, our VIP clients are looking for the same amenities in the air as they have on the ground. This includes an office, bedroom, shower, dining facilities, entertainment areas and more. At Fokker Services Group we start defining your dream interior with a blank sheet and taking you and your team step by step towards boarding your new interior for the first time.

Choose your interior designer

In the collaboration with interior designers we see several possibilities. Of course, you are welcome to bring your own designer. If you have not taken this decision yet, we are happy to recommend or help you select the right designer for you.

WHY FOKKER SERVICES GROUP?

Fokker Services Group is a unique company with a strong focus on values and operating with a philosophy. In everything we do, we aim for the highest standards that match the needs of our high demanding clients. Therefore we push our boundaries and are committed to improving continuously. That's why we are Fokker Services Group.

- Generations of Craftmanship
- Top Dutch Quality
- Value
- Fully Customised Solutions
- Delivering Promises
- State of the Art Technology
- Highest Safety Standards
- The Fokker Airport
- Worldwide Customer Care

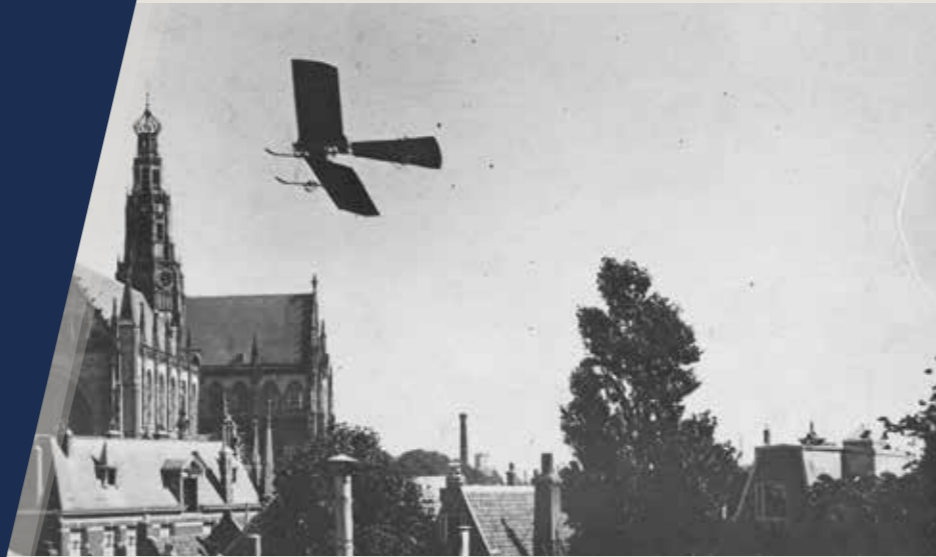

HERITAGE

The remarkable Dutch aviation pioneer forms the main pillar of our company Fokker Services Group.

In 2019 Fokker celebrated its centennial milestone. Anthony Fokker started the Nederlandsche Vliegtuigenfabriek Fokker (Netherlands Aircraft Factory Fokker) 100 years ago. Today, we are still continuing his legacy by providing, among others, exclusive aircraft interiors. We couldn't do this without all the experience we have gathered over the years. It's a heritage that we are proud to continue.

Anthony Fokker (1890 - 1939)

▲ *De Spin (The Spider)*

Anthony Fokker called the small propeller aeroplane he designed and constructed in 1910 De Spin (The Spider). On 1 September 1911 he flew for the first time above Haarlem.

▼ *"Pelikaan" and "Snip"*

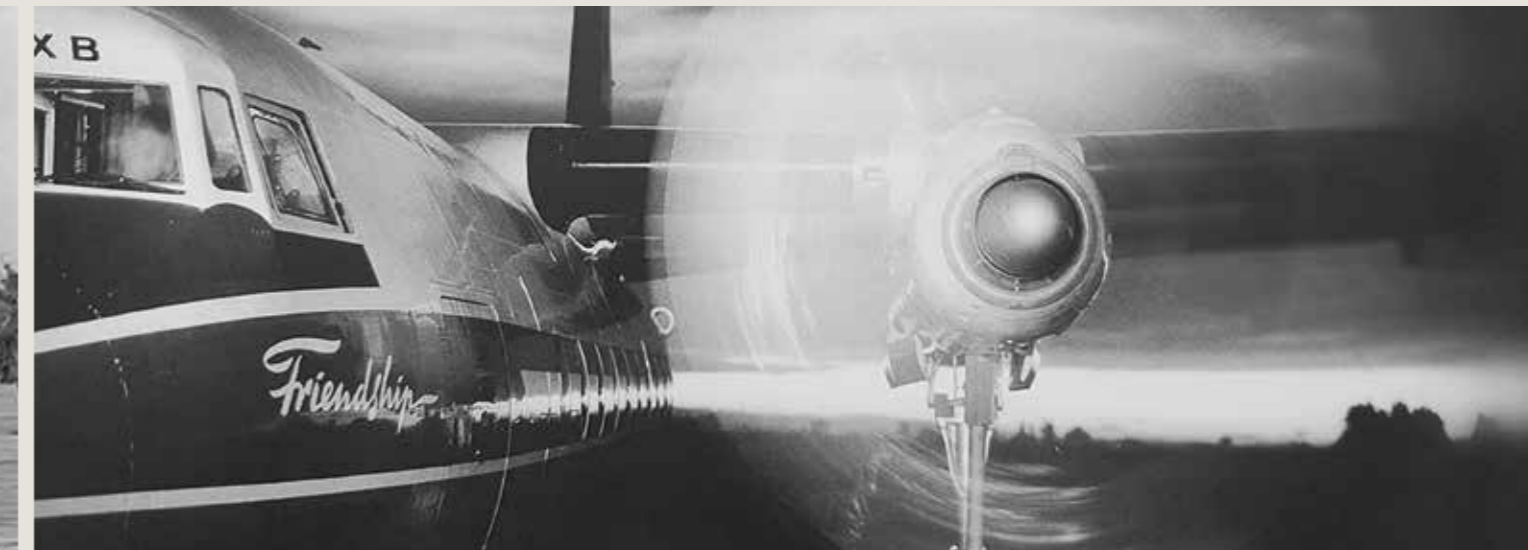

Legendary are the record flight of the "Pelikaan" to Batavia in 1933 and the first transatlantic flight of the "Snip" to Curacao in 1934.

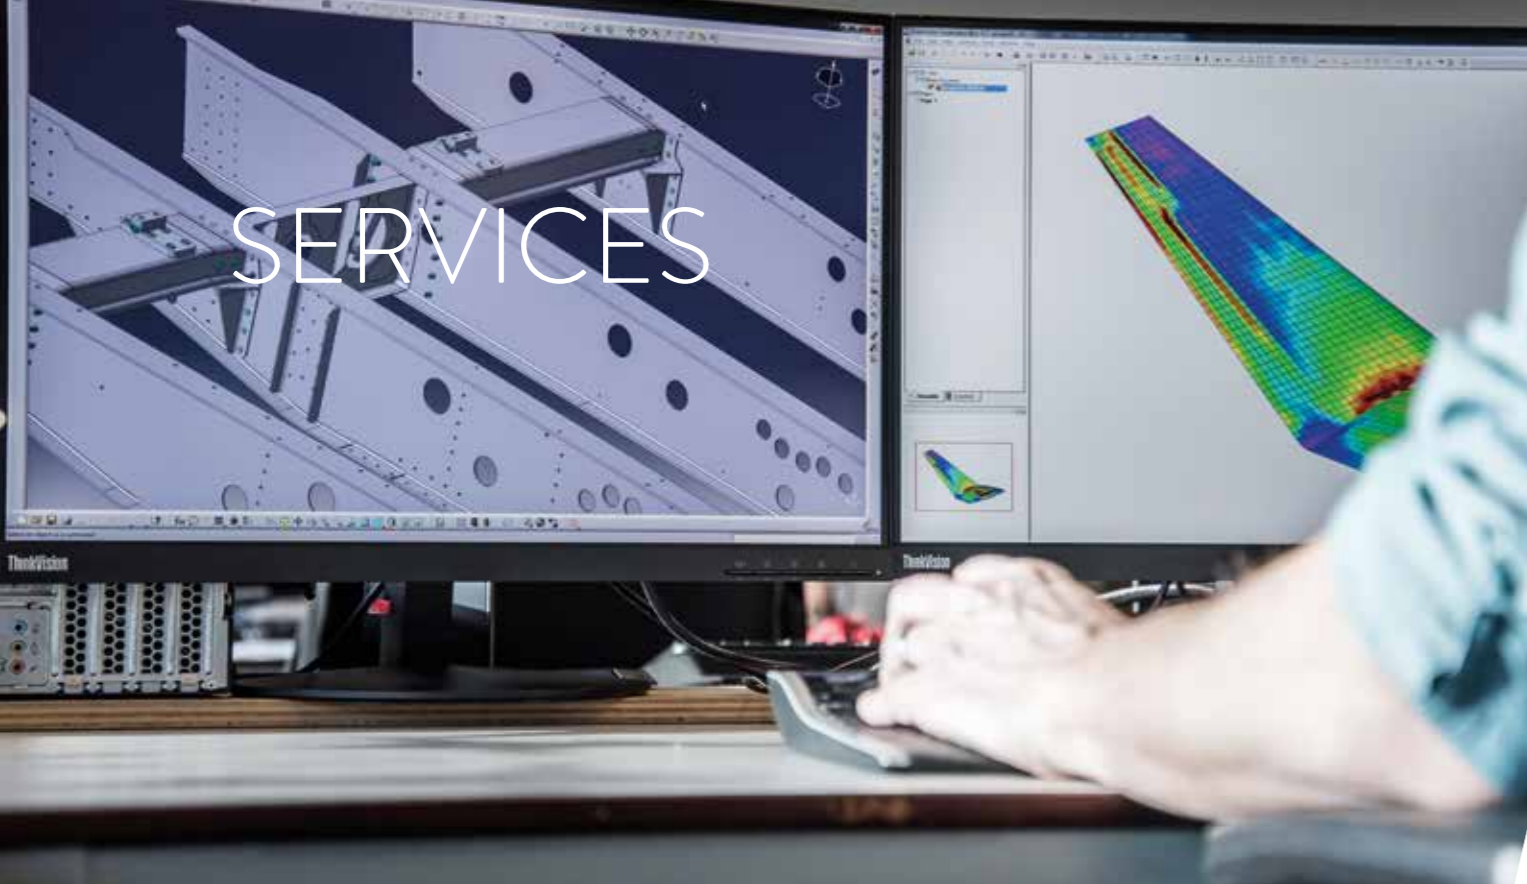

▲ *The world's largest aeroplane manufacturer*

At the end of the 1920s Fokker was the world's largest aeroplane manufacturer with, among others, three factories in the United States.

▼ *Fokker F27 "Friendship"*

In 1958 a new innovative aircraft type was introduced, the Fokker F27 "Friendship". With new lightweight techniques applied, Rolls-Royce Dart turboprop engines and cabin pressure, it was a very comfortable and reliable aircraft.

SERVICES

DESIGN & ENGINEERING

- Design and Engineering of VIP interiors, systems and installations
- Certification of completions, modifications & systems to obtain STCs
- Redesigns related to obsolescence issues, upgrades and refurbishments
- On-site Technical Support to enhance aircraft operations
- Maintenance requirement analysis and recommendations

VIP MAINTENANCE, MODS & REFURBS

Our MRO division takes care of scheduled airframe maintenance, introduction of SBs/ADs, restoration of damages modifications. Our MRO facility includes a paint hangar for a full repaint or new exterior liveries. Furthermore, it includes various shop capabilities, from interior furnishings to alterations to monuments and refurbishment of seats, redefining certain VIP cabin areas or cabin functions such as upgrading cabin systems. Cabin modifications can be completed during your maintenance downtime.

SERVICES

VIP INTERIOR CAPABILITIES

- Manufacturing and installation of bespoke interiors
- Modifications to Systems and Avionics
- Re-upholstery of seats and linings
- Full or part-refurbishments of existing VIP Interiors
- Performance of structural (interior and exterior) modifications
- Component overhaul, testing and rectifications
- Performance of functional, operational and tests leading to certification
- On-site technical support during modifications

CUSTOMER SUPPORT & CARE

We fully realise that our customers put a high premium on obtaining quality, convenience and mobility. Using us is a matter of great confidence and trust. We will endeavour maximum availability and reliability during the lifetime of our cabin interior. In support of this, we are always available, 24/7 all year round for any support you may require.

OUR FACILITY

Fokker Services Group is uniquely located at Woensdrecht Airport in the Netherlands. Woensdrecht Airport is a military airfield with its own dedicated landing strip.

Having our own flight operations facilities provides you with an ideal location to visit us with your own aircraft, and discuss new opportunities, such as a new VIP completion, refurbishment or your scheduled maintenance. Of course, our airport is also easily accessible with other forms of transport, such as a car or train.

For our latest Fokker Services Group Approvals and Certificates please visit fokkertechniek.com/vip.
